

# Happy Bambino Scholarship Application for Classes & Membership Assistance

Happy Bambino is a pregnancy and early parenting center founded in 2004. Co-owners, Alison Dodge and Lea Wolf, envisioned the creation of a center that would bring together the resources, products and support that families need from pre-conception through birth and early childhood. An important part of our mission has always been providing affordable access to resources...

Happy Bambino's resource center offers educational classes, parent-child activities, and access to resources such as lactation support and parent groups. Happy Bambino offers full and partial scholarships for parents to attend activities in the Happy Bambino Resource Center.
